### PROFILE

I am a software engineer with over 8 years of experience designing and developing complex solutions. My approach is focused on problem-solving, attention to detail, and delivering high-quality work on time. I am highly motivated, detail-oriented, and committed to continuous learning and improvement. I am passionate about innovation and keeping up with industry trends. I have a proven track record of taking on new challenges, developing creative solutions, and working collaboratively with teams to achieve project goals. I am excited about the opportunity to contribute my expertise and drive to the success of your organization.

### WORK EXPERIENCE

#### Senior Software Engineer

Tech9

August-2022 - Present

- Work closely with clients to understand requirements for migrating old applications or implementing new ones
- Design solutions to challenging problems and ensure new interactions meet client's needs
- Responsible for migrating old functionalities/behaviours and designing new interactions as required
- Leverage 7+ years of industry experience to provide new avenues for growth and learning for myself and the organization
- Skilled in designing backend services for bulk CRUD operations
- Perform thorough unit and API testing for developed services to ensure they meet client's requirements
- Highly motivated and passionate about software engineering
- Believe my professional qualifications and experience make me a valuable asset to Tech9
- Committed to contributing to the company's success through my work

#### Lead Software Developer

Hansen Technologies
